

NSF Research Experience for Undergraduates (REU) Site at Baruch College NSF AWARD# [1852373](#)

The REU Program:

- x Offers advanced research training for one academic year undergraduate students who attend four-year colleges and universities in the New York metropolitan area.
- x Targets students who belong to historically disadvantaged groups.
- x Provides a concentrated research experience in which each student plans and executes an independent project and works with a faculty mentor and their research team on existing research projects.

Eligible Students:

- x Historically disadvantaged groups (e.g., Asian, Hispanic, African American, first generation college students). Non-members of these groups will be considered and are encouraged to apply.
- x At least a sophomore standing and a B average in their undergraduate program. Psychology majors may apply to the program. Preference will be shown to psychology major.
- x Completed an introductory psychology course and at least two content courses in psychology.
- x Completed course in statistics and research methods or must be willing to take these courses during the REU year.
- x Enrolled in classes fulltime for the duration of the program.
- x U.S. citizens or permanent residents.
- x Available every Monday from 4-5pm for a mandatory SEM weekly graduate school workshop.

Activities:

- x Completion of an independent research project supervised by REU faculty mentor.
- x Participation in at least 10 hours of research per 2020.
 - x Students earn \$100 for each 14-week semester, in compensation for work in the research lab.

Applications:

- x Applications can be found at:
<https://www.baruch.cuny.edu/wsas/academics/psychology/NSFUndergraduateResearchExperience.f>

-
- x Applications are due June 1, 2019
 - x Send completed applications to Dr. Charles Scherbaum, Principal Investigator via email:
Charles.Scherbaum@baruch.cuny.edu
