YESHIVA UNIVERSITY

Annual Fire Safety Report

October 1, 2023

Wilf Campus

Washington Heights section of Manhattan

2021

Name of Residence	Fires and Cause	Injuries	Deaths	Value of Damages
-------------------	-----------------	----------	--------	------------------

The University, at times, also houses students in the following apartment housing (AH).

Address of Residence	Sprinkler/Fire Suppression	Detection Type	Reduction Mechanisms	Fire Alert
475 West 186 th St.	None	Smoke Detectors	None	None
90 Laurel Hill Terrace	*Partial Sprinkler	Smoke Detectors	None	None
501 West 184 th St.	None	Smoke Detectors	None	None
2498 Amsterdam Ave.	None	Smoke Detectors	None	None
403 Audubon Avenue	None	Smoke Detectors	None	None
521 West 185 th St.	None	Smoke Detectors	None	None
551 West 185 th St.	None	Smoke Detectors	None	None
556 West 185 th St.	None	Smoke Detectors	None	None
407 Audubon Avenue	None	Smoke Detectors	None	None
497 West 182 nd St.	None	Smoke Detectors	None	None
24 Laurel Hill Terrace	None	Smoke Detectors	None	None
36 Laurel Hill Terrace	None	Smoke Detectors	None	None
480 West 187 th St.	EMC /P <<N			

Portable Electrical Appliances, Smoking, and Open Flames in a Housing Facility

Rules - In general, residents are expected to maintain adequate standards of cleanliness to avoid fire hazards and must not obstruct sidewalks, entrances, passages, fire escapes, elevators, lobbies, stairways, corridors, or halls with personal property. The following items are prohibited in the residence halls and will be confiscated:

- x Flammable liquids and gases

EMERGENCY EVACUATION:

Housing Procedures for Evacuation in Case of a Fire

Keep calm. Do not panic. Notify the Fire Department as soon as possible. Fire Department personnel will be on the scene of a fire within minutes of receiving an alarm.

- x If your building is equipped with a fire alarm and that alarm is sounded, you should evacuate the building in accordance with the procedures outlined in the Fire Safety Notice affixed to the back of the room/suite entry door. **WHEN A FIRE ALARM SOUNDS, ALWAYS EVACUATE THE BUILDING.**

- x Because flame, heat, and smoke rise, generally a fire on a floor below your room or apartment presents a greater threat to your safety than a fire on a floor above. Do not overestimate your ability to put out a fire. Most fires cannot be easily or safely extinguished alone. Do not attempt to put a fire out once it begins to quickly spread. If you attempt to put a fire out, make sure you have a clear path of retreat from the room.

- x When exiting the building during a fire, close all doors as you exit to confine the fire. Never use the elevator. It could stop between floors or take you to where the fire is.

- x Heat, smoke, and gases emitted by burning materials can quickly choke you. If you are caught in a heavy smoke condition where visibility is poor, get down on the floor.
