Real Cash Benefits

GROUACCIDENT INSURANCE

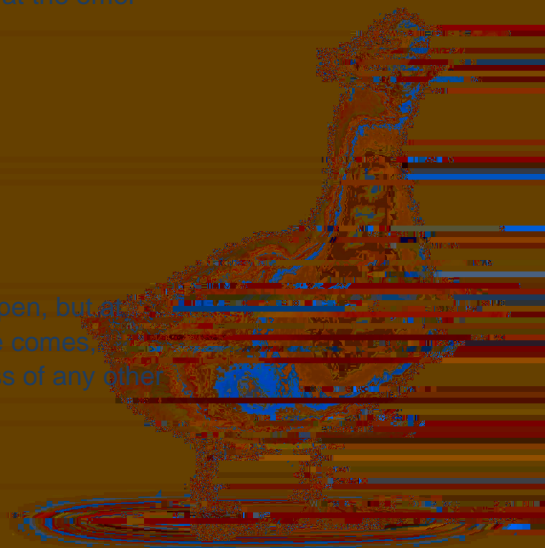

AC2<sup>G</sup>

## Do you know how much a trip to the emergency room could cost you?

An accident insurance plan provides benefits to help cover the costs associated with unexpected bills. You don't budget for accidents if you're like most people. When a Covered Accident occurs, the last thing on your mind is the charges that may be accumulating while you're at the emergency room, including:

- The ambulance ride
- Use of the emergency room
- Surgery and anesthesia
- Stitches
- Casts
- Wheelchairs
- Crutches
- Bandages

You get the picture. These costs add up—fast. You hope they never happen, but at some point you may take a trip to your local emergency room. If that time comes, wouldn't it be nice to have an insurance plan that pays benefits regardless of any other insurance you have? This group accident plan does just that.
